

Meeting 5

Listening: Technology Presentations

Analyzing and understanding spoken presentations on technology topics

Warm-up Activity

Discussion:

- What is your favorite piece of technology?
- Have you ever listened to a tech presentation (e.g., Apple Event, TED Talk)?
- What do you usually expect to hear in such presentations?

Why Practice Listening to Tech Presentations?

- Improve comprehension of spoken English in tech contexts
- Understand how professionals present information
- Learn pronunciation of technical terms
- Prepare for meetings, webinars, and conferences

Key Elements to Analyze

1. Main Idea – What is the presentation about?
2. Structure – Introduction, body, and conclusion
3. Keywords – Important technical terms used
4. Visuals – How are images or slides used?
5. Speaker's tone and clarity

Example Listening Task

- Watch the video: 'How Cloud Computing is Changing the World' (YouTube)
- Task:
 - - Note the main topic
 - - List 5 key terms mentioned
 - - Write a short summary (3-4 sentences)
 - - Discuss: What did you find interesting or confusing?

Pre-Listening Vocabulary

- Cloud Infrastructure – foundational system for cloud services
- Virtualization – creation of virtual versions of hardware/software
- Data Center – facility for managing servers and data storage
- Scalability – ability to grow with demand
- Subscription Model – pay-as-you-go pricing

Listening Skills in Focus

Key Skills to Practice:

- Predicting content
- Listening for gist and specific details
- Recognizing signposting language (e.g., “First, let me explain...”)
- Taking effective notes

Vocabulary Preview

Useful Words & Phrases:

- Innovation
- Breakthrough
- User-friendly
- Artificial Intelligence (AI)
- Features / Specifications
- Performance
- Upgrade / Update

Presentation Structure

Typical Tech Presentation Format:

1. Introduction to the Product
2. Problem & Solution
3. Key Features / Demonstration
4. Technical Specs
5. Price and Availability
6. Closing

Listening Task

- **Watch/Listen to:** *“Introducing the New Smartphone”* (Instructor provides audio or video)

Task:

- Take notes on main points
- Focus on product name, main features, and pricing

Comprehension Check

Answer the following questions:

- What product is being presented?
- What are the key features mentioned?
- What problem does the product solve?
- How much does it cost and when will it be available?

Pair Activity

Work in pairs:

- Retell the presentation to your partner
- Use your notes
- Try to use vocabulary from slide 5

Wrap-Up & Homework

Summary:

- You practiced listening to technology-related presentations
- You learned vocabulary and structure of tech talks

Homework:

Find a 3–5 minute tech video (YouTube/TED/etc.)

- Take notes
- Summarize it in writing (100–150 words)
- Submit next week
