Resume and CV for the IT Industry

How to write professional resumes
and CVs in English for IT careers

What is the Difference?

- • Resume: A brief (1-2 pages) summary of skills, education, and experience for a specific job.
- • CV (Curriculum Vitae): A more detailed document used for academic or research positions.
- In the IT field, resumes are typically preferred for job applications.

Structure of a Resume

- 1. Contact Information
- 2. Professional Summary or Objective
- 3. Skills (Technical and Soft Skills)
- 4. Work Experience
- 5. Education
- 6. Certifications or Projects (optional)

Example Resume (IT Student)

- Name: Dina Rahmawati
- Email: dina.rahma@example.com | Phone: +62 812 3456 7890
- Objective: To obtain an entry-level position as a web developer
- Skills: HTML, CSS, JavaScript, PHP, Git, Teamwork
- Experience:
 - - Intern, PT Solusi Digital (3 months)
 - - Developed internal web dashboard using PHP & MySQL
- Education: BSc Information Systems, Universitas BSI

When to Use a CV?

- Use a CV when applying for:
 - Graduate programs
 - Research assistant positions
 - Academic scholarships or grants
- Include:
 - - Full academic history
 - - Research or thesis titles
 - - Publications, conferences, awards
